# TOTAL ECLIPSE AT HEAVEN'S LANDING

---

## August 21, 2017

---

For the first time in 26 years, a total solar eclipse will occur in our great country, and we will play host to the world's eclipse chasers. For those of us who already live here but have never seen an eclipse, this is the opportunity of a lifetime to see the most beautiful thing on the planet right here in NORTH GEORGIA!

Join us at Heaven's Landing to see the TOTAL ECLIPSE from our vast open full view of the sky.

To see the eclipse from the Peach State, the centerline of the path just barely crosses the Northeastern corner of the state, and runs about 12 miles between the borders of TN and SC. Clayton (2m34s at 2:35:45pm) is a nice county seat close to the centerline, and will be a perfect location to view the eclipse. NOTE: You're not going to see it from Athens, Gainesville, Augusta, or Atlanta, as these locations are not in the path of totality. If you want to stay within Georgia to see the eclipse, you will have to come to Heaven's Landing! Here you'll see 2m36s of totality of the eclipse.

We hope you will join us for an afternoon to remember. Contact Holly Ciochetti for details on the TOTAL ECLIPSE PARTY! 706-982-5245 or [holly@heavenslanding.com](mailto:holly@heavenslanding.com)

# New Additions to make your stay at Heaven's Landing even more heavenly!

## SayWeather™

Heaven's Landing now has SayWeather! Similar to an AWOS system, SayWeather annunciates current weather conditions on the Heaven's Landing CTAF frequency (122.90) with just three clicks on the microphone.

SayWeather™ provides on-demand airport advisory weather information to pilots in the air. It transmits a voice report of up-to-the-minute advisory weather that is sourced from an airport weather station. It can automatically publish weather advisory information to web-based weather sites, without requiring an always-on PC.

SayWeather™ is airport-based; no specialized equipment is required in the cockpit and is accessed via any standard VHF air band transceiver.

SayWeather™ will be at at EAA AirVenture in Oshkosh July 24-30. Stop by Hangar D-4145 to see a demonstration or visit **Heaven's Landing** to use our SayWeather system and take a tour of the most wonderful fly-in community on earth!
